## **Lambodar Inc. Announces Exclusive Managed Hosting for Its Clients**

Cupertino, CA (June 25, 2009)—Custom software expert Lambodar Inc. announces a new service to its customers, Lambodar Managed Hosting Services, or “LMHS.” Operating on a state-of-the-art cloud computing system, the new hosting service offers cost-saving, virtualized resources without sacrificing quality, and is dynamically scalable to fit individual client needs.

“Server management is something we’ve always offered our clients,” says Lambodar Director Sanjay Pal, “and we host all our own websites and development servers in-house. Now we’re taking it one step further. Now hosting is a service that clients take advantage of, too.”

The new LMHS will allow existing Lambodar Inc. customers to install their web hosted applications directly under the steady care and watchful eye of Lambodar Inc.’s knowledgeable team.

By limiting its clientele and presenting this solely as a service to existing customers, Lambodar Inc. hopes to extend its expertise as a hosting service while maintaining the kind of one-on-one, personalized service customers have come to expect from the team. This exclusive focus cuts down on overhead costs, preserving value delivered directly to the customer.

LMHS utilizes a best of breed Virtualization technology from Citrix Systems to maximize performance on Lambodar’s high-capacity servers. Hosted on quad-core Intel and AMD processors designed to handle massive computing workloads, Citrix XenServer™ is the only enterprise-class, cloud-proven virtualization platform that delivers both the critical features of live migration and centralized multi-server management. A powerful server virtualization solution that radically reduces datacenter costs by transforming static and complex datacenter environments into more dynamic, easy to manage IT service delivery centers, Citrix XenServer takes just a few clicks to setup, and new servers can be added on-demand.

With no transfer fees, no setup fees, and no fixed-term contract, LMHS’s competitive rates match or beat the industry’s most qualified competitors while preserving top-quality service.

## **About Lambodar Inc.**
